Subject: RE: Re:

I think Alan and I are up to speed on the 3 conditional areas...if there is anything new from an EPA HQ/NOAA perspective on the latest State OSDS/new developments approach we may want to touch base. Alan and I are meeting the week before the Tillamook presentation date and we will try to touch base with DEQ to help make sure there are no surprises.

There may be some more detail on the small and medium fish stream rule soon. A couple of Forestry Board members and the timber industry folks are increasingly worried that a substantive forestry rule change will be needed to meet the PCW criteria. Increased efforts to discredit the DEQ PCW criteria are already underway by OFIC/timber interests.

I anticipate possible efforts to limit the scope of the ODF riparian rule to increased protection around small and medium fish streams that are critical habitat for T&E salmon and trout (versus all small and medium fish streams in the CZM).

Ex. 5 - Deliberative

Ex. 5 - Deliberative I follow up with Kim Kratz and Jeff Lockwood. Dave

THanks Dave for the update. If you need anything else from me, let me know.

Alan talked to David Wells from the Tillamook Watershed Association and we have a slot on their 2/25/2014 meeting agenda. Alan will cover OSDS, new developments, and ag and I will cover forestry. We understand that DEQ (we think Greg Aldrich) will also present during the OR CZARA timeslot. I'll touch base with Greg and Gene before the meeting. Dave
